January 15, 2021

Welsh Mountain Home is committed to being transparent in keeping residents, families, team members and our community aware of changes related to COVID-19. We want to reassure everyone that we are acting on this fluid situation.

We have great news. Our pharmacy provider, HersheyCare, is able to provide the Moderna COVID-19 vaccine to residents and team members who elect to receive it on Thursday, January 21. This replaces the planned January 29th clinic previously announced. In four weeks, HersheyCare will return to administer the second dose. All standard precautions and monitoring protocols will be observed. We are grateful to be able to add this tool to our fight with COVID-19 as soon as we are able.
